

# skopos

expert fabric  
for hospitality

“The suite is everything I dreamed of”

**Expert fabric made in the UK specifically for the international hotel, cruise and leisure market.**

Skopos expert fabrics tick all the boxes in terms of UK technical regulations, but with bags of style.

[skoposdesignltd.com](http://skoposdesignltd.com)

**Expert fabrics are high performance interior furnishing elements, designed and made by experts for experts.**

Drawing on over 30 years experience of specialist weaving, printing and dyeing we aim to take some of the pressure off, making it easier for you to delight your clients.

High performance upholstery and soft furnishing fabrics created and manufactured right here in the UK from the finest raw materials, Skopos' expert fabrics guarantee world class form and functionality with flair.

From Carbon Trust accredited facilities we design, originate and manufacture our expert fabrics for full service make-up on site or simply product off the roll. Whichever works best for you.

**Skopos. Trust the experts.**

made in the UK

Good colour and design understanding is one thing, our designers have it in droves. Though to ensure we are always up to speed with the very latest ideas, we work closely with the Royal College of Art in London.

We find that this alliance keeps us fresh and forever challenging any established mindsets on what should and should not be done. Often we're involved in working with designers to come up with bespoke textiles and fabrics that can help develop signature styles for character buildings or hotel brands.

Intuitive design is very much part of the expert fabrics philosophy.

Expert colour is delightful

skoposdesignltd.com

Expert fabrics come in many forms. All of them are entirely fit for purpose, the finest in form and function.

Where appropriate we ensure our collections adhere to all the relevant international fire retardancy and durability standards.

EN1021  
BS7176 predictively tested - low and medium hazard areas  
BSEN102:1+2 (cigarette and match)  
Martindale abrasion

# Flexible expertise

Flexibility. That's what service is about, flexibility and attention to detail.

Our team provide a complete service. Design, origination, manufacture and make-up on-site providing full service or product off the roll.

Now with the addition of digital printing technology, our capabilities are virtually unlimited.

'Imagine the possibilities..' an overworked phrase when applied to digital printing. Of course you can imagine the possibilities... or many of them we're sure. Let's not imagine, let's consider.

The investment in our own digital facility demonstrates our commitment to the business, to your business.

Digital is faster, more flexible, it allows us to work together to create interiors that reflect our combined expertise and once again impress, surprise and delight the experts who will work and play in our world.

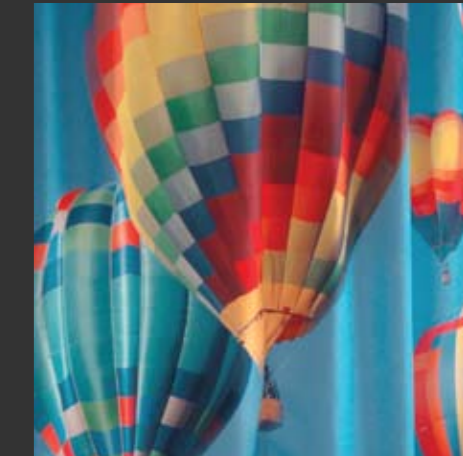

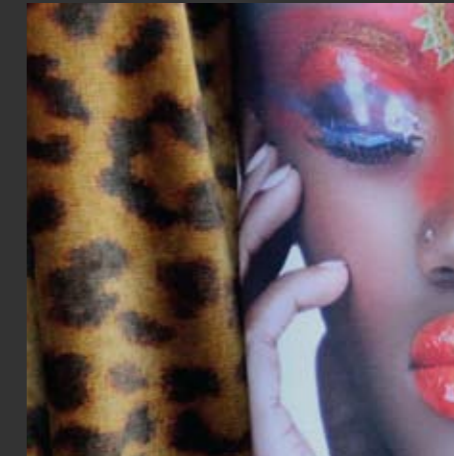

Whether you want to print on sheers, taffetas, drapery fabrics, velvets or upholstery we can look beyond the limitations of traditional textiles with you to create bespoke digital print for UK and international contract applications.

Concept and chair by RMB Projects

The potential to develop unique soft furnishings is vast, whether this be creating individual wall-art; striking imagery on cushions, panels or blinds, "in-register" upholstered headboards or iconic pieces of furniture.

Corporate branding can also be developed into graphic artwork, integrating brand values into signature interior design.

## digital fabric printing

Print lead times from just three days.

# Expert service

Expert fabrics are delivered with expert service.

Our sales teams around the world have worked closely with architects, specifiers, interior designers and consultants across the board for many years now.

Proud of our ISO9001 accreditation, we diligently ensure all our fabrics are tested against key performance and fire retardancy criteria.

A dedicated project management team will work with you on measurements and fittings and, through our in-house sewing department, will deliver made to measure products to deadline and to budget.

We really do know how it is, trust the experts.

So much choice; textures, colours, themes, only the vastness of the virtual world has space to show our entire portfolio.

We're fashion experts, so our world turns fast. We endeavour to maintain a beautifully functional website to showcase all of our expert fabrics, along with case studies, aftercare and technical information plus everything else you may need.
