Sculptured Velvet Collection

MODERNE

Inspired by the glamour of the Art Deco movement, Moderne, a sculptured velvet collection from Skopos, celebrates the symmetry and geometric style of the period, combining strong lines with elegant fluid forms.

The stylish colour palette encompasses classic black and white through jewel like aquamarines, luxurious mulberries and sophisticated neutrals, lending drama and elegance to any interior scheme be it classic or contemporary.

Composed with over 50% bamboo, Deco and Morcenx have a wonderful soft handle and have the environmental benefit of being made from sustainable and renewable sources.

Appropriate for use as upholstery all four qualities are severe contract grade and meet all international contract flame retardant standards.

Skopos is an ISO9001 accredited company and has over 30 year's specialist experience in the design and manufacture of high performance flame retardant fabrics for the hotel, leisure and cruise sectors.

We have a sales team who would be happy to provide you with information and advice about the Moderne collection or any other aspect of the product range.

If you wish to view the full range of Skopos fabrics you are welcome to visit our showroom. We can also arrange tours of our manufacturing facility, in-house laboratory and sewing room from which we offer a full make-up service.

For further information please contact our Sales Office.
