

Woodlands

by Mosaic

- Flame retardant to BS5867 Part 2 Type C
- Washable to 71°
- Colour/light fast to BS1006
- BioProtex anti-microbial treatment available

A collection of FR contract fabrics for the healthcare sector

The woodlands scattered across the British landscape stimulate all our senses with fresh green scents of Spring, balmy blue & green hues of Summer flowers, the abundant gold in Autumn or the still calm of Winter.

Woodlands, the new healthcare collection from Mosaic captures the senses in a depiction of our woodlands at their best.

The Woodlands collection has been specifically developed to meet NHS safety and durability requirements:

- Flame retardant to BS5867 Part 2 Type C
- Washable to 71°
- Colour/light fast to BS1006

For areas where there is a greater risk of infection Mosaic fabrics can be treated with BioProtex, an anti-microbial treatment that inhibits the growth of micro-organisms.

Mosaic is an approved supplier to the NHS - contract reference number B/3/N/20571

Want to know more?

Mosaic has a sales team dedicated to the healthcare sector who would be happy to provide you with samples, advice and further information about the Woodlands collection.

We can also arrange tours of our showroom, manufacturing facility, in-house laboratory and sewing room from which we offer a full make-up service.

For further information please contact our Sales Office.
